INTRODUCTION

Message from Charter President

Rotary Club of KL Sentral too have same vision.

First, we want to work towards in strengthening our club. As members, we need your full pledged support towards club activity and programs. Togetherness in club activity, projects or even regular meeting will strengthen the relationship of fellow members while strengthening the morale of our club. When we work together, we have more capacity and more hands to deliver more significant projects. We also want to strengthen the number of members in our club. Members are the pillars of any organizations. Taking that in mind, we are taking up the challenge to have the retention rate to the lowest and at the same time to grow our membership.

Nobody cares what we do until they know why we are doing it. Public awareness also another element that we need to emphasize this year. We have equal responsibility to tell the public why we are doing our project when we are doing it. This awareness not only for them to recognize our good work but also to instill Rotary value in them. We will find less rejection to approach the public when they believe in what we do. We must include public in all our project and encourage their participation in our activity.

As a young and vibrant club, we will learn and improvise from time to time and the activities that we have planned is an added advantage in our Rotary journey. Wish you all a wonderful Rotary year ahead.

IMAGINE ROTARY

Thank you.

Yours in Rotary,
Charter President Angelina
